Beyond a Cosmetology License

Have you ever thought about getting an Associate degree with your Cosmetology license? There is a way, let me share with you how….

Mesa Community College has partnered with the beauty house of L'oreal and Arizona/Scottsdale based ROLFS Salon of the Future to offer an Associate in Science degree in Beauty and Wellness. The online degree is designed to help you receive the experience you need, as well as the knowledge to succeed in the beauty and wellness market. The degree will educate you on business strategies that you'll be needing when working in today's salon industries. You will also gain diverse skills in finance, communication, marketing, critical thinking and organizational leadership.

How it works, is when you achieve your Cosmetology license, you can receive up to 31 credits that will go towards your 60-68 credits needed for your Associate in Science degree for Beauty and Wellness at Mesa Community College. It doesn't stop there! If you want to continue after earning your associate's degree, you can follow a transfer pathway to Arizona State University and earn a Bachelor of Applied Science degree in Personal Care Emphasis. All of the classes are online so it is convenient for you to work and get the degree of your dreams.

Some of the career opportunities that are available with the Associate in Science degree in Beauty and Wellness are: hairdressers, hairstylists, cosmetologists, manicurists/pedicurists, retail sales person and skincare specialists. Financial Aid is available for the Associate in Science in Beauty and Wellness degree.
