

# Operation Salivation

## Stop the spread of COVID-19

### Before Your Test

- Nothing in your mouth for at least 30 minutes before sample collection.
- NO food, drink, tobacco products, vape, or chewing gum, etc.

### At Your Test

Step 1: Open package and remove saliva collection aid.

Step 2: Place ribbed-end securely in tube and gather saliva in mouth.

Step 3: Gently guide, drooling not spitting, and place the saliva into a tube. Close tube and give back to staff member.

**\*\*FREE\*\***
